

Be Careful What You Wish For: A Vampire Short Story

Vampires Wanted... If only the audition casting call had said those two words. They didn't. How was I supposed to know there was a vampire in the city? Even though New Orleans has its haunted myths and legends, I could never have known what awaited me when I rang the bell to that Victorian gate. His name was Andrew, and he offered me the chance to leave my monotonous day job and become like him---a vampire. My instincts told me the offer was too good to be true. Hell, even Andrew warned me. Told me I needed to be careful what I wished for. I couldn't help myself. I needed that passion, that vampire lust that the undead have for everything around them. Even if it meant making a choice that I would soon regret. Andrew called the oath a vampire vow, whatever that means. And for a while, every sense was heightened, every color vibrant. If only I'd listened to him. Always be careful what you wish for. *Be Careful What You Wish For* is a vampire short story set in New Orleans.
