

Gods Vacation

What happens when God develops a split personality, takes a vacation, is reborn as Spencer Perry, Gabrielle/Gabe Stevens, and Vrum, ends up in San Francisco, and forgets who S/he is? Hell breaks loose! Spencer Perry becomes Chairman and CEO of the Global-Government and Business Alliance, and the most powerful man on Earth. His government rules with an iron fist; those close to him call him Father. Gabrielle Stevens gets a sex change and becomes Gabe. He lands a job at Upside Down Books, meets Carlos Martinez, and falls in love with a beautiful Jewish woman named Naomi Peterson. They join the revolutionary movement to take on Spencer Perry's fascist regime. Vrum, a member of a race of androgynous aliens called the Ekawa, discovers the Focal Point is located in San Francisco and travels across the galaxy to bring Gabrielle and Spencer back together, but fails. The problem is, they don't want to be God. Legend says there's another way to put God back together, but it's a long shot. If 144,000 people can become wholly enlightened at the same time, they can insist that God become whole, and S/he must comply. GODS VACATION is a fast-paced, off-beat dystopian thriller set in 2031 when global warming has wreaked havoc and outsourcing has left most people jobless and hungry. It is complex, political, philosophical, psychological, and satirical. It is a new take on an old story. It is timely and empowering.
