

# Working Shakespeare: The Ultimate Actors Workshop The Consumer Edition

(Applause Books). How do we enter the heightened, extravagant language of Shakespeare and yet feel truthful in our contemporary world? How do performers excite the audience with Shakespeares rich imagery and dynamic rhythm, yet make it real for the twenty-first century? We assume that a sophisticated intellectual background is required to grapple with Shakespeare. But there is a much deeper, almost primal response as available to inner-city students as to their counterparts in the private school to the sound and rhythm in Shakespeares language which arouses our emotions: feelings of anger and sorrow, of passion and laughter. This landmark five-part video series gives voice to Shakespeares most beloved and widely known speeches and sonnets, performed by a powerhouse ensemble of American and British actors, as they delve into the structure, meaning and power of Shakespeares language. Each DVD explores a different aspect of Shakespeares work.
